*DELTA*VITA® 1

## FEASIBILITY STUDIES AND SCREENING WITH SMALLEST SUBSTANCE QUANTITIES

Wednesday, 17.06.2020

02:00 PM - 03:00 PM

CEST

Lecture Language: English

In this approx. 30-minute webinar, Dr. Stefan Mende and Jan Wolfrum will present the new technology of the *DELTA*VITA® 1 dual centrifuge.

When faced with developing of formulations, innovative strategies and laboratory equipment in the early development stages are essential to the success of your project. In the webinar the functional principle and the transferability of the results to other technologies will be explained on selected feasibility studies.

You can look forward to safe, simple and efficient wet grinding at the smallest scale.
