

Our Company

ANALYTICAL INSTRUMENTS SA was established in 1962. It is committed to the support of the research, educational and health institutions, as well as the industrial sector in Greece.

It provides complete solutions for:

- chemical analyses and processes for research and development
- quality control and standardization in industrial production
- equipment for research and diagnostic centers in the health care field

Operating out of its self-owned Athens headquarters and Thessaloniki branch office, ANALYTICAL INSTRUMENTS SA covers the whole of Greece, providing a full range of high-quality instruments and complete scientific and technical customer support. An auditorium is also available for seminars and customer trainings.

ANALYTICAL INSTRUMENTS SA is certified by TUV HELLAS according to ISO 9001:2015, ISO 13485:2016, ISO 14001: 2015, ISO 45001:2018 and accredited according to ISO 17025:2017 by ESYD. It is also certified according to Greek Ministerial Decision 1348/04 for medical devices.

Our mission

Acting as exclusive agents with long tradition and experience, we strive to protect and promote the interests of both our customers and our suppliers in the best possible way.

Our People

Our staff includes highly educated chemists, chemical engineers, biologists, physicists and electronic engineers. Our personnel are regularly trained abroad and are thus continuously updated on the latest scientific and technological developments.

Our Customers

To the regular customers of ANALYTICAL INSTRUMENTS SA belong:

- Industrial Quality Control Labs (pharmaceuticals, food, petrochemicals, polymers, metallurgy, chemicals, etc.)
- Research and Quality Control State Labs
- Biological/Biochemical and Biotechnology Labs
- Educational Centers
- Quality Control Private Labs
- State and Private Diagnostic Centers

Our Suppliers

ANALYTICAL INSTRUMENTS SA has been the exclusive representative in Greece for several decades of many renown scientific equipment manufacturers. This testifies its confidence and respect within the scientific community, as well as its commitment and dedication to effectively protect the interests of both the companies it represents and its local customers.
